Thank you for your interest in the Palmdale High-Speed Rail Station Area Plan project. We welcome your comments.

The SAP and Palmdale community Needs their own High Speed Internet backbone, fiber lines ~~SAP~~ radiating outward. Planning for this is essential for a MID 21ST Century community. Do NOT rely on Verizon, & AT&T to do it for you.

- Palmdale means to me = community
- what post impact study of a city our size shows. did city & highway volume traffic decrease? If so by how much? Did crime increase?
- station crime = what kind of security will be put into place?
- how much will it cost to use the rail. If expensive most will not be able to afford to ride.
- How many jobs will rail brins to Palmdale?

UNDER the huge or Part
Parking Lot with Red ~~and~~ or Green
Sensor when vehicle come close to park

Green = Full park
Red = avaliable

like Century City Mall on Welshire
Blvd

Stn bld - Western theme - old west - Acton - Metrolink Stn

→ Character of the City to be considered in the station design.

Similar character as in Metrolink Station close to ACTON is what ideally is desired.

I'm excited about the potential economic benefit HSR could bring. I spend a lot of time going down below to LA and dread the traffic. It would be great to be able to get around SoCal faster. I live and work in Palmdale. I moved to Palmdale when I got a job up here. I love living up here. However, if I were to get a job elsewhere/different company, I would probably need to move as I wouldn't want to spend numerous hours sitting on the freeway. With HSR, there'd be greater possibilities of staying put as a resident and being able to commute by rail. Also, I'd like to see more recreational and entertainment opportunities up here. Weekend nights can be kind of boring up here. At the same point in time, please preserve the wide open natural spaces outside the city center - we have some beautiful scenery up here.

Thank you for your interest in the Palmdale High-Speed Rail Station Area Plan project. We welcome your comments.

Truly, truly, truly appreciate the community involvement. Mr. Chester Britt was very helpful about listening and responding to our personal concerns while helping us further understand the beauty + visuals for the project's future. The visualizations/participation opportunities in this meeting helped the ideas appear more tangible/easier to imagine. I hope the joint involvement of city + community allows us to develop the culture + environment we share as we establish what Palmdale means to the rest of the world when the HSR is produced.
