The “Curiosity Machine” Coming to Palmdale City Library

PALMDALE – The Palmdale City Library, 700 E. Palmdale Blvd., will host the “Curiosity Machine” a free, fun, 4-week science program on Saturdays, Feb. 21 through March 14 from 11 am to 1 pm.

The “Curiosity Machine” is a web-based program that encourages young scientists to create and test science projects, called “challenges,” with an emphasis on problem-solving and creativity. Each week, kids will work as a group to conquer a new “challenge,” then submit their creations through the Curiosity Machine website for feedback from actual engineers and scientists.

“Calling all scientists ages 9 to 12!” said Children’s Librarian Marissa Thompson. “Your brilliant minds are needed for challenges such as making a flat ball, engineering a skyscraper for the wind, and designing a boat that can zip through the ocean.”

For more information about the “Curiosity Machine,” please visit <https://www.curiositymachine.org/challenges/>.

The Palmdale City Library is open seven days a week. Hours of operation are Monday through Thursday from 10 am to 8 pm; Friday and Saturday from 10 am to 5 pm; and Sunday from 1 to 5 pm.

For more information, please call the Palmdale City Library at 661/267-5600 or TDD 267-5167, or visit www.cityofpalmdale.org/library.
