City of Palmdale to Begin Road Resurfacing Work on Rancho Vista from 15th West to 10th East

PALMDALE — The City of Palmdale will begin a road resurfacing project on Rancho Vista Blvd. from 15th St. West to 10th St. East on Thursday, Sept. 8.

The \$1.1 million project was awarded to RC Becker. The project will resurface 577,000 square feet of pavement, roughly one percent of the arterial network.

The work will be done from 7 pm to 5 am and is expected to end on Friday, Sept. 30.

“This method of pavement preservation will ensure the streets will maintain performance and utilize the existing pavement asset an additional 20 years before the area will need to be revisited,” said Palmdale Public Works Director Mike Mischel.

The project is funded by a \$1.1 million street resurfacing gas tax fund.

“The City of Palmdale has 504 miles of roads, totaling over 91.8 million square feet of asphalt,” noted Mischel. “Regular maintenance of roads is an important part of the City’s ongoing Capital Improvement Projects.”
